When it comes to choosing which collections your child has access to, it is important to consider age-appropriate content and materials that align with your family values and beliefs. Parents of minors with a Livingston County Library account have options when it comes to monitoring access to library collections for their child.

1. Parents have the option to have their child's checkout receipt emailed to them so they are notified of what materials their child checks out at the library.

Email my child's checkout receipt to my email.
